

IN THE PUBLIC EYE

21 The number of Mirrorball Trophies that have been awarded in *Dancing with the Stars*' more than 10 years on air.

AVERAGE PRODUCTION TIME:

1 week for the stem, 2 weeks for the base, and 2 minutes for the mirrorball.

20 POUNDS

The weight of the Mirrorball Trophy. (Good thing recipients of this award have been working out!)

18 IN.

The height of the Mirrorball Trophy.

FACT: The original Mirrorball Trophy created by *Dancing with the Stars* Art Director James Yarnell was made from lamp parts.

DANCING WITH THE STARS MIRRORBALL TROPHY

FACT: Each award is made from a solid-spun brass stem and CNC routed letters—both plated in 24-karat gold; a piano lacquer wood base; and an 8-in., \$10 plastic mirror ball ordered online. “It’s supposed to be a funny comical award...the whole show is very tongue in cheek,” said David Moritz, founder and CEO of Society Awards, “so we craft this beautiful, high-quality sculpture and then affix the cheap plastic mirror ball to it. The incongruity is what makes it great.”
